

# Coverage System

## COMPREHENSIVE PESTICIDE & FERTILIZER SOFTWARE

It's much more than an app - Coverage System is a complete solution to your pesticide and fertilizer tracking, planning and reporting that will save you time and money. Get Nutrient Analysis, Inventory, Cost, and more, all with an export ability for reporting. View in various forms, including 30-day calendar.

- No setup required, access from desktop, phone or tablet
- Application logs pre-loaded with products and labels, even fertilizers and EPA numbers
- Turn-key compliance for State record-keeping laws

- Accumulator offers tallies for products and 13 nutrients
- Export all data to Excel, generate numerous reports for Cost, Inventory, Nutrients and more
- Inventory/Cost are so easy and not required to begin use
